

PRAESIDIUM'S CLUB CARESM

Developed for Boys & Girls Clubs of America

One of the most devastating things that can happen at your Club is having a child sexually abused by an employee, a volunteer, or another program participant. If that happens, a child in your care will be forever harmed and your Club's reputation severely damaged.

ABUSE DOESN'T HAVE TO HAPPEN!

BGCA has partnered with Praesidium to help make sure this tragedy doesn't happen at your Club - under your watch.

With more than 4,000 clients and two decades of experience, Praesidium is the national leader in abuse risk management. We've worked with schools, camps, churches, sports clubs, and Boys & Girls Clubs across the nation to keep the children they serve safe from abuse and their employees and volunteers safe from false allegations of abuse.

CLUB CARESM Product Descriptions

Unlimited access to Armatus®, Praesidium's eLearning library of courses designed to teach your employees and volunteers how to prevent sexual abuse and false allegations of sexual abuse at their Club. All they have to do is log on, take the training, and you'll be able to instantly check the database to determine that they've met your training requirements.

Model Abuse Prevention Policies: Use these model policies to set the standards in your Club. The policies establish rules about such issues as outside contact between children and employees, types of interactions that are permitted, and incorporate Boys & Girls Club Code of Conduct. We'll even put them online so your employees and volunteers can read them when they complete Armatus®!

Know Your Score Survey: Complete this online survey, designed for Boys & Girls Clubs, and you'll know just how safe your Club is and you'll receive a customized action plan for how to eliminate potential dangers.

Telephone Helpline: Need help deciding how to eliminate a potential danger? Not quite sure about an applicant? Heard a strange comment about how an employee interacts with a youth? Call Praesidium's Risk Analysts for a confidential expert consultation.

Quarterly Safety Webinars: Your Club will be invited to join a 45-minute webinar, just for Boys & Girls Clubs, to learn about a range of topics of special interest to employees, administrators, and board members. For example, learn about the dangers of social networking sites and how to manage them at your Club.

Crisis Management: A distraught mother shows up at your Club and accuses an employee of molesting her son. What should you do? Call us for immediate step-by-step guidance from how to respond when dealing with the accused to preparing for the media.

Your Boundaries. Your Call!TM: This three-part video series teaches school-age kids from 5th grade up how to protect themselves if someone tries to violate their emotional, physical, or behavioral boundaries.

Insurance Advantage: Boys & Girls Clubs that enroll in Praesidium's Club Care services may be eligible for advantageous insurance coverage or reduced premiums related to sexual misconduct claims.
