

ABUSE RISK MANAGEMENT FOR FOSTER CARE AGENCIES

Armatus® Online Training from Praesidium teaches foster parents and case managers **six methods for preventing abuse and false allegations** in your organization.

FOR CASE MANAGERS

Case managers are responsible for ensuring the safety of children under their watch. This course teaches case managers how to protect those they serve from abuse and help foster parents provide safe, loving homes for foster children.

Helping foster parents provide loving care, nurturing, and watchful supervision to children in need can be immensely rewarding. But your job demands dedication, sensitivity, compassion, and vigilance.

FOR FOSTER PARENTS

Foster parents face many risks and unexpected situations. This course provides foster parents with the information and training they need to develop and maintain healthy relationships with foster children.

There are three types of circumstances that could occur in your home:

- One child may sexually act out with another child.
- An adult may sexually abuse a child.
- A child might falsely accuse you or someone in your home of sexually abusing him.

Click each pillow to learn more about these circumstances.

PRAESIDIUM
Our passion. Your protection.

SCREENING & SELECTION TOOLKIT™

Effective screening is your organization's first line of defense against potential abusers, and Praesidium's Screening & Selection Toolkit for Foster Parents provides a comprehensive system for selecting foster parents. Our Toolkit includes sample applications, psychosocial assessment, background questionnaire, interview templates, and reference checking forms.

ONSITE TRAINING

Praesidium's onsite training ensures staff and foster parents understand the most current and comprehensive abuse prevention standards in the industry. Praesidium offers onsite training in abuse risk management, preventing peer-to-peer abuse, screening and selection, and monitoring and supervision.

PRAESIDIUM'S RISK ASSESSMENT & ACCREDITATION®

Every organization is unique, with its own culture, practices and risks. Praesidium reviews your programs and operations without interrupting day-to-day activities, then delivers The Praesidium Report™ - a comprehensive analysis of our findings and specific recommendations for how to reduce or eliminate your exposures. After correcting any potential exposures and meeting standards, your organization becomes Praesidium Accredited for three years – publicly demonstrating that you will not compromise the safety of those in your care.

To talk more about the services we recommend for your organization, contact Praesidium today.
